For example, when you interact with other users, Students, mentors/coaches, or teachers, including by posting messages, videos, content, and photos, receiving, or providing feedback, or completing forms with information about your experiences, the Services will collect the information you provide in such submissions. Some of our Services may also involve the use of film and audio recordings, or the uploading of video and audio files. The Services also collect information about group memberships.
- **Single Sign On Services:** If you choose to link your account with us to a third party account (such as your Google SSO, or a Federated Single Sign On Service using SAML, MS SAML, or other proprietary SSO standards), we collect information from SIS, LMS, or other similar systems to facilitate account creation and logon processes for the performance of our contract. User information provided may also be used for the rostering of students, teachers, and creation of sections/classes on our learning platforms.
- **Payment and billing information:** When you make payments through the Services, you will need to provide certain financial account information. We also collect payment information if you make a purchase or sign up for a subscription. Please note that we use third-party payment processors to process payments made to us. The payment processor's use of your personal information is governed by their privacy notice.
- **Contact and communications information:** We collect personal information when you sign up for our newsletter or mailing list or otherwise communicate with us, including by contacting us in person (for example, at conferences, workshops, seminars, and other events), via telephone calls, text message, facsimile, or email. We may also collect personal information through your communications with our customer-support team.

4. OUR THIRD-PARTY DATA COLLECTION AND ONLINE ADVERTISING PRACTICES

Accelerate Learning INC may participate in interest-based advertising and use third party advertising partners to collect information from visitors to the Services for the purpose of displaying interest-based advertisements on other websites, apps or services, social networks, or on other devices you may use. Typically, though not always, these third-party ad networks use cookies and tracking technologies to recognize your browser or device and to collect information about your visit to our Services to provide you with customized content, advertising, and commercial messages which may be more relevant to your interests, as well as to provide advertising-related services such as reporting, attribution, analytics, and market research.

Note that similar controls may exist for other tracking technologies, such as pixels, SDKs, and local Storage. - **Online Ads:** To learn more about interest-based advertising and how you may be able to opt-out of some of this advertising (to the extent the advertising partner or other entity participates in such industry opt-out pages), you may wish to visit the Digital Advertising Alliance's (DAA) resources at www.aboutads.info/choices or the Network Advertising Initiative's (NAI) online resources at <http://www.networkadvertising.org/choices/>. You can also opt-out of receiving some interest-based advertisements on mobile apps by visiting <http://www.aboutads.info/appchoices>. You may also be able to opt-out of some — but not all — interest-based advertising served by mobile ad networks by visiting <http://youradchoices.com/appchoices> and downloading the mobile AppChoices app.

Please note that when you opt out of receiving interest-based advertisements, this does not mean you will no longer see advertisements from us or on our online services. It means that the online ads that you do see from these self-regulatory program participants (or other participants that may provide an opt-out mechanism) should not be based on your interests. We are not responsible for the effectiveness of, or compliance with, any third parties opt-out options or programs, or the accuracy of their statements regarding their programs. In addition, third parties may still use cookies to collect information about your use of our online services, including for analytics and fraud prevention as well as any other purpose permitted under those self-regulatory programs.

This section describes how we collect, use, disclose, and process Student Data collected through the Services.

Please note that third-party learning providers that schools or educational organizations may engage with through the Services may have practices and policies that differ from those described herein. The Student Data we disclose to third-party services you integrate, such as web-based learning management systems, as well as any other personal information such provider collects from the school or educational organization and Students directly, will be governed by the provider's own privacy policy and the terms of any other agreement between the learning provider and the school or educational organization. Please read the privacy policy of any third-party learning provider to understand their privacy practices.

General Student Data Practices: In addition to the data collection practices specified in this Privacy Notice, we also collect the following information in connection with Students and schools and educational organizations:

We do not use collected information to amass a profile of a Student except in furtherance of providing the features and functionality of the Services. We never sell Student Data unless the sale is part of a corporate transaction, such as a merger, acquisition, bankruptcy, or other sale of assets, in which case we make efforts to ensure the successor entity honors the privacy commitments made in this Privacy Notice and/or we will notify the school and provide an opportunity to opt-out by deleting Student Data before the data transfer occurs.
- **California Assembly Bill 1584 ("AB 1584").** This Privacy Notice and our Services are designed to comply with AB 1584. - We maintain a comprehensive data security program designed to protect the types of Student Data maintained by the Services.
- We will clearly and transparently disclose our data policies and practices to our users.
- We will never sell Student Data unless the sale is part of a corporate transaction, such as a merger, acquisition, bankruptcy, or other sale of assets, in which case we will require the new owner to continue to honor the terms provided in this Privacy Notice or we will provide the school with notice and an opportunity to opt-out of the transfer of Student Data by deleting the Student Data before the transfer occurs.
- We will not make any material changes to our Privacy Notice or contractual agreements that relate to the collection or use of Student Data without first giving notice to the school and providing a choice before the Student Data is used in a materially different manner than was disclosed when the information was collected.

How to Review and Delete Student Data: A school or other educational organization may review and delete a Student's information, if in compliance with any applicable law. Student data is retained within the system during its useful life. If a student exits a district\organization, their data will remain in the system until that year's end of year process. Student information may be removed from the system at any time by appropriate district personnel. In all cases, all backup information will be removed with a 30-day rotation cycle. If you are a parent or Student, please contact your school or other educational organization to access any personal information, limit a Student's access to the Services, or delete personal information or the Student's entire profile.
