STEMscopes™
THE LEADER IN STEM EDUCATION

2022-2023 SCHOOL YEAR
Free, Automated Upgrades

The latest enhancements to STEMscopes equip educators with even more opportunities to engage students. Our award-winning digital curriculum provides more convenience and accessibility than ever before.

THE IMPROVEMENTS TO STEMSCOPES PROVIDE MORE WAYS FOR:

Increased Account Security
✓ New login timeout after 10 hours of inactivity
✓ District password updates

Efficient Teacher Planning
✓ Resource tab with easy access to the Teacher Toolbar and other commonly used resources
✓ Revamped gradebook view to manage student grades more efficiently
✓ Intuitive interface for entering student answers for benchmarks and package assessments

Student Accessibility
✓ Offline Mode option to download and complete assignments without internet access
✓ Language toggle function for flipping seamlessly between English and Spanish *This function works only on assignments that previously were offered in Spanish.*
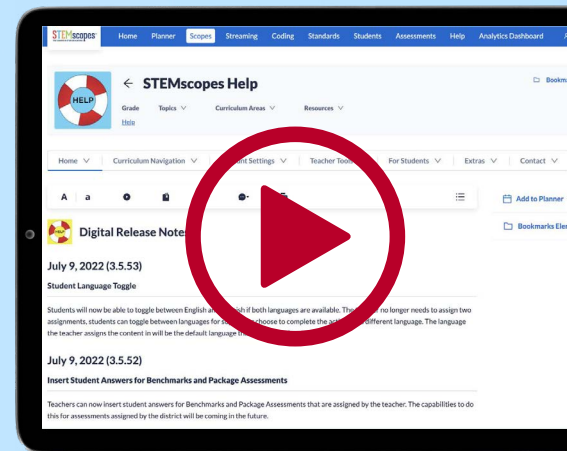

Differentiation
✓ Teacher and student comment sharing on assignments
✓ Standard, scientific, and graphing calculators can be added or removed by teachers

District Report Functionality
✓ Reset assessments or return to students for modification
✓ Tool Tips offer a quick glance at report criteria for easy assessment administration
✓ Upgraded filters to combine and analyze data
✓ Easy access to teacher-assigned benchmark results
✓ District quantile reports for analytics on math benchmarks

To access a list of all product updates in our curriculum as they are released, click on Digital Release Notes under your dashboard's help button. Guides and instructions are included. See the new and improved STEMscopes in action below.
